

November, 2021

Today I am writing to ask for your support and a gift to our year-end annual fund. After seven years with Preservation Maryland, I could not be prouder of the work we're accomplishing — or the team we've assembled! We now have tradespeople, historians, preservationists and planners on our team — all pulling for preservation.

Your support means a great deal to all of us — it is literally the fuel that fires our work!

Next year, I want to vastly increase the number of trades' trainees we support, provide more grants, help restore cemeteries and rehabilitate more threatened historic buildings — and your gift to our annual fund will make all of that and more possible.

Thank you! Nick
